

Using Tele-Mentoring to Optimize Quality of Care and Quality of Life for Patients with Metastatic Kidney Cancer (TOQQ-RCC)

Session Title	<i>Cytoreductive Nephrectomy in the CARMENA Era and Shared Decision-Making for Medical and Surgical RCC Treatment</i>
Clinic Director & Facilitator	<i>Elizabeth Wulff-Burchfield, MD; Jennifer Klemp, PhD, MPH, MA</i>
Cancer ECHO Survivorship Team:	<i>Jennifer Klemp, PhD, MPH, MA; Catie Knight, MPH; Hope Krebill, MSW, BSN, RN; Trish Long, PA; Traci McCarty, Christian Sinclair, MD, FAAHPM; Ashley Spaulding, MA; Karla Van Goethem, Mary Beth Warren, MS, RN</i>
Target Participants	Oncology care teams, physicians, APPs, nurse clinicians, navigators, cancer registrars, quality team members
Clinic Objectives	At the conclusion of the ECHO session, participants should be able to: <ol style="list-style-type: none"> 1. Understanding the role of cytoreductive nephrectomy as part of comprehensive renal cell carcinoma management. 2. Characterize clinic practices for patient education about systemic therapies for metastatic RCC, their side effects, and toxicity management. 3. Identify existing practice level barriers to to comprehensive toxicity assessment and monitoring for patients with metastatic RCC. 4. Assess gaps in clinical practice regarding first-line treatment choice and decision-making regarding cytoreductive nephrectomy for patients with metastatic RCC. 5. Improve knowledge regarding best practices for toxicity monitoring and mitigation and preparedness to implement change in proactive toxicity monitoring and management protocols for patients with metastatic RCC on systemic therapies.
